The Watch the People Want
It's the new jeweled Ingersoll Waterbury. In the first place it's the size that's so much wanted—the popular "12 size".

Then the whole "get-up" is stylish, up-to-the minute in all particulars. Note the graceful bow and crown and the figures on the dial.

And with jewels at the points of greatest friction, it's accurate; yet it is sturdy, too—like other Ingersolls.

You can also have it with a Radiotele dial that shows time in the dark—at \$4.
